

Turnbuckle Instructions

Covers Part #5339, 5538, 5539X

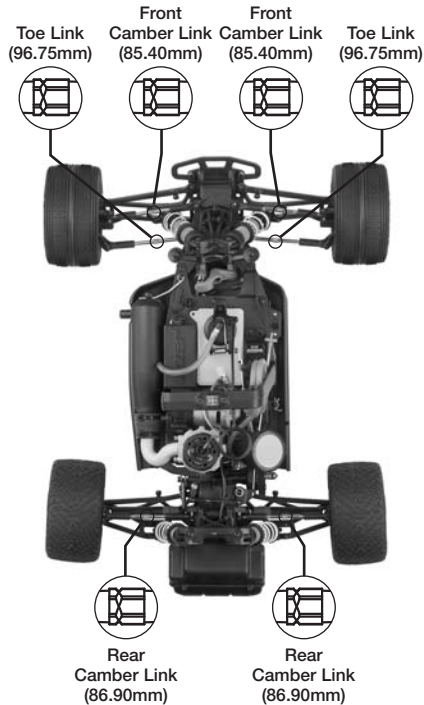

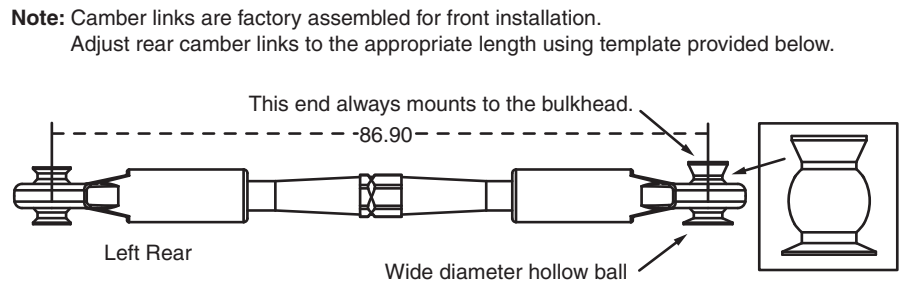

Front Toe Link - 5538, 5539X (actual size)

Front Camber Link - 5539, 5539X (actual size)

Rear Camber Link - 5539, 5539X (actual size)

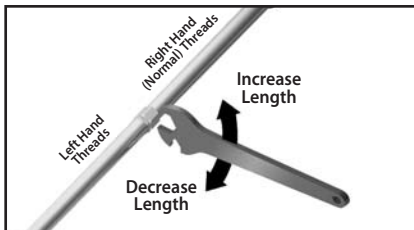

Note: Camber links are factory assembled for front installation.

Adjust rear camber links to the appropriate length using template provided below.

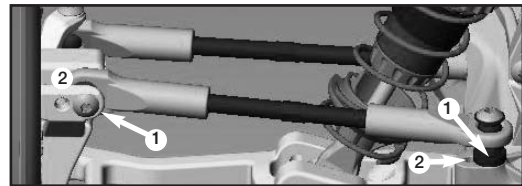

Left Hand Thread Indicators

All of the turnbuckles on the truck should be installed so the left hand thread indicators point to the same direction. This makes it easier to remember which way to turn the wrench to increase or decrease turnbuckle length (the direction is same at all four corners). Note that the groove in the hex indicates the side of the turnbuckle with the left-hand threads.

Camber Link Mounting Locations

Front Camber Link Mounting Locations:

#1 is the stock mounting location on the bulkhead and caster block.

#2 is an optional mounting location.

Rear Camber Link Mounting Locations:

#2 is the rear stock mounting location.
